

# FREMONT MISCHIEF SKAGIT GOLD STRAIGHT RYE WHISKEY

***Velvety smooth, maple, slight oak, easy sipping***

**GRAIN BILL:** 80% Rye & 20% Malted Barley

**VARIETAL(S):** Dark Northern Rye  
& Copeland Malted Barley

**GEOGRAPHY:** Cascadia - Skagit Valley, WA

**DISTILLERS NOTES:** We double distill the mash for Skagit Gold Straight Rye Whiskey. Our first distillation uses the entire mash, including the ground grain, for full flavor and full body. Our second distillation refines the distillate for smoothness. Lastly, we age in our finest “bespoke” barrels, made from American white oak, air-dried 24 months, custom toasted and charred #3. Studies have shown the natural microbial growth on the wood during those 24 months increases esters, aldehydes and other desirable components of fine whiskey flavor. Without worrying too much about the chemistry, you can test this for yourself with every sip.

**AWARDS:**

**GOLD MEDAL**  
- Denver International  
Spirits Competition, 2017

**BEST OF SHOW**  
- Dark Spirits, Northwest Wine & Spirits, 2017
